Recognized by Forbes as one of "The World's Most Innovative Companies" for 2016

Positioned as a "Visionary" in multiple Gartner Magic Quadrants in 2016¹

RED HAT ACADEMY

Provides Red Hat curriculum at no cost

Develops in-demand skills employers need

Addresses the challenges academic institutions face keeping technology offerings up-to-date

CHALLENGES AND SOLUTIONS

CHALLENGE:

Creating and maintaining enterprise-ready curriculum

SOLUTION:

- Continually updated curriculum created with input from Red Hat's support team and field personnel
- Delivers practical skills for workplace tasks.

CHALLENGE:

24% of graduates feel that the cost of education exceeded the value.²

SOLUTION:

- Prepares students with valuable skills that companies are seeking.
- Increases your value, since more than 90% of the Fortune 500 rely on Red Hat³ (including 100% of airlines, telcos, healthcare companies³ and commercial banks⁴)

“ We were having trouble coming up with a good, solid, rigorous Linux curriculum. We had an opportunity to become a member of the Red Hat Academy, and we jumped on it and never looked back.

Lee Toderick
East Carolina University
United States

“ The importance of Linux in the IT market is growing rapidly, so the Red Hat Academy program enhances career prospects for our graduates.

Krzysztof Brzosko
Białystok Technical University
Poland

CHALLENGE:

60% of graduates do not feel adequately prepared to fulfill the requirements of their job.⁵

SOLUTION:

- A superior teaching approach ensures maximum knowledge, skills transfer, and retention.
- Students engage in task-focused activities, checks for understanding, and facilitated discussions.
- Red Hat Certifications are available to students at discounted rates.

“ With the rapid growth of Linux, Red Hat Academy program provides a high quality training curriculum which equips our students with the skills needed to be work ready.

Peter Drake
Victoria Polytechnic
Australia

CHALLENGE:

Graduates feel they are weaker in “technical” skills compared to “softer” skills.⁵

SOLUTION:

- Students gain strong foundations in open source concepts and technologies.
- Students learn to preempt system failures and quickly react to issues that arise in the workplace.

“ Red Hat Academy is, without a doubt, the most demanding and thorough Linux curriculum product on the market.

Robert Guess
Tidewater Community College
United States
