

Veritas Protection Infographic

PROTECTION

Enterprise data sources are vast, but regardless of source or location, all data needs protection. It must be backed up, but more importantly, it must be recoverable at any time, at any scale, as quickly as possible. Getting modern, infrastructure-agnostic and highly-scalable data protection for any workload in the enterprise is only possible with Veritas.

THREE IMPACTING TRENDS

175

zettabytes
of data
by 2025

\$33B

Amount the ransomware
industry will be
by 2025

75%

of organizations will have
deployed hybrid cloud
or multi-cloud by 2020

THREE DATA PROTECTION CHALLENGES

THOUSANDS OF PLATFORMS AND WORKLOADS:

OPERATING SYSTEMS,
VIRTUAL, DATABASES, SAAS,
BIG DATA, CLOUD

HUNDREDS OF STORAGE TARGETS:

BACKUP APPLIANCES,
DEDUPE APPLIANCES,
HARDWARE SNAPSHOTS,
FLASH BLADES, CLOUD, TAPE

MULTITUDES OF COMPLIANCE REGULATIONS:

GDPR, HIPAA,
PCI DSS, CCPA,
FACTA, FTCA, APP,
FINRA, MIFID III

THE SOLUTION - VERITAS PROTECTION

NETBACKUP

Keep your business-critical data secure and compliant no matter where it lives, while eliminating the cost and complexity of point products. Ensure rapid recovery of your data while scaling to any size workload, regardless of deployment form factor - software, appliances, containerized, SaaS.

[Learn more >](#)

CLOUD DATA PROTECTION

Seamlessly scale your data protection strategy to the cloud and choose from over 60+ fully tested and certified cloud connectors, including AWS S3, Microsoft® Azure, Google Cloud Platform, Oracle Cloud Platform, Oracle Database Server, IBM Bluemix, Hitachi and SwiftStack.

[Learn more >](#)

RANSOMWARE

Protect your data from a ransomware attack that locks or encrypts your data. Ensure that data is always recoverable so you never need to pay a ransom.

MODERN WORKLOADS PROTECTION

Get modern protection for popular Big Data, Hyperconverged Infrastructures and Open Source workloads with Veritas NetBackup Parallel Streaming Technology.

[Learn more >](#)

VIRTUAL DATA PROTECTION

Automated protection and granular recovery for VMware, Microsoft Hyper-V, Nutanix AHV, Red Hat Virtualization and OpenStack.

[Learn more >](#)

DISASTER RECOVERY

Resiliency isn't just about backup and replication. Expand data protection to automated and SLA-driven resiliency that caters to the uptime for entire business services.

[Learn more >](#)

LONG TERM RETENTION

Reduce risk and stay compliant with end-to-end, cost-effective long term retention in software or appliance form factors.
