Voluntary Product Accessibility Template

Version 1.7

Date: February 29, 2016
Name of Product: Alfresco Share 5.1
Contact for more Information: John.Iball@Alfresco.com

Product description:

Alfresco Share provides content management capabilities with simple user interfaces, tools to search and browse the repository, content such as thumbnails and associated metadata and a set of collaboration tools such as Wikis, Discussions, and Blogs. Alfresco Share is organized as a set of sites that can be used as a meeting place for collaboration.

Summary Table – Voluntary Product Accessibility Template

Criteria	Supporting Features	Remarks and Explanations
Section 1194.21 Software Applications and Operating Systems	Not Applicable	
Section 1194.22 Web-based internet information and applications	Included	Web-based product
Section 1194.23 Telecommunications Products	Not Applicable	
Section 1194.24 Video and Multi-media Products	Not Applicable	
Section 1194.25 Self-Contained, Closed Products	Not Applicable	
Section 1194.26 Desktop and Portable Computers	Not Applicable	
Section 1194.31 Functional Performance Criteria	Included	
Section 1194.41 Information, Documentation and Support - Detail	Included	

Section 1194.22 Web-based Internet information and applications – Detail – Voluntary Product Accessibility Template

Criteria	Supporting Features	Remarks and Explanations
(a) A text equivalent for every non-text element shall be provided (e.g., via "alt", "longdesc", or in element content).	Supported with Exceptions	The majority of instances for non-text have alternative text provided.
(b) Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.	Supported	For some document types, Alfresco provides a document preview using HTML5. The original document is available as an equivalent alternative. This is an optional feature and not required for successful use of the application.
(c) Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.	Supported	Where color-coding is used, it is not a primary method of conveying information.
(d) Documents shall be organized so they are readable without requiring an associated style sheet.	Supported with Exceptions	Equivalent Facilitation is provided to support low vision users in high contrast. A high contrast theme is provided as standard with the product. In order to view the application logically, styles that define element layout cannot be ignored
(e) Redundant text links shall be provided for each active region of a server-side image map.	Not Applicable	The application does not use server-side image maps.
(f) Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.	Not Applicable	The application does not use server-side image maps.
(g) Row and column headers shall be identified for data tables.	Supported with Exceptions	Some tables do not include column headers.
(h) Markup shall be used to associate data cells and header	Supported with	Some tables do not include column

Criteria	Supporting Features	Remarks and Explanations
cells for data tables that have two or more logical levels of row or column headers.	Exceptions	headers.
(i) Frames shall be titled with text that facilitates frame identification and navigation.	Supported	
(j) Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.	Supported	The application does not use blinking or flickering content.
(k) A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of this part, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.	Not Applicable	Modern technologies provide for non-textual views of the content available in the browser.
(l) When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by Assistive Technology.	Supported with Exceptions	Most scripted areas of the application provide text that can be used by assistive technologies. Some areas of the application (such as hierarchical-tree based navigation) provide support via equivalent facilitation such as breadcrumb style navigation.
(m) When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with §1194.21(a) through (l).	Supported	There are no mandatory applets, plugins, or similar required. HTML5 is optionally used for document previews and uploads.
(n) When electronic forms are designed to be completed on-line, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.	Supported with Exceptions	Forms may be keyboard driven. A small number of editable fields and/or controls not have labels associated with them.
(o) A method shall be provided that permits users to skip	Supported with	Currently, the application provides skip

Criteria	Supporting Features	Remarks and Explanations
repetitive navigation links.	Exceptions	navigation links or methods, for example in the common header and in search pages. Some pages are not currently fully supported
(p) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.	Not Applicable	Alfresco Share does not require a timed response as part of its core functionality.

Section–1194.31 Functional Performance Criteria – Detail – Voluntary Product Accessibility Template

Criteria	Supporting Features	Remarks and Explanations
(a) At least one mode of operation and information retrieval that does not require user vision shall be provided, or support for Assistive Technology used by people who are blind or visually impaired shall be provided.	Supported	Assistive Technologies compatible with the operating systems and Web browsers supported by Alfresco can be used.
(b) At least one mode of operation and information retrieval that does not require visual acuity greater than 20/70 shall be provided in audio and enlarged print output working together or independently, or support for Assistive Technology used by people who are visually impaired shall be provided.	Supported	Assistive Technologies compatible with the operating systems and Web browsers supported by Alfresco can be used.
(c) At least one mode of operation and information retrieval that does not require user hearing shall be provided, or support for Assistive Technology used by people who are deaf or hard of hearing shall be provided	Not Applicable	Alfresco Share does not require user hearing.
(d) Where audio information is important for the use of a product, at least one mode of operation and information retrieval shall be provided in an enhanced auditory fashion, or	Not Applicable	Alfresco Share does not require user hearing.

Criteria	Supporting Features	Remarks and Explanations
support for assistive hearing devices shall be provided.		
(e) At least one mode of operation and information retrieval that does not require user speech shall be provided, or support for Assistive Technology used by people with disabilities shall be provided.	Not Applicable	Alfresco Share does not require user hearing.
(f) At least one mode of operation and information retrieval that does not require fine motor control or simultaneous actions and that is operable with limited reach and strength shall be provided.	Supported	Assistive Technologies compatible with the operating systems and Web browsers supported by Alfresco Share can be used.

Section–1194.41 Information, Documentation and Support – Detail – Voluntary Product Accessibility Template

Criteria	Supporting Features	Remarks and Explanations
(a) Product support documentation provided to end-users shall be made available in alternate formats upon request, at no additional charge	Supported	Alfresco provides electronic versions of all product support documentation
(b) End-users shall have access to a description of the accessibility and compatibility features of products in alternate formats or alternate methods upon request, at no additional charge.	Supported	Requests should be made through Alfresco Customer Support. See www.alfresco.com for details.
(c) Support services for products shall accommodate the communication needs of end-users with disabilities.	Supported	Product support for Alfresco Share is available in a variety of formats and from a number of online sources available from Alfresco Software, Inc.
