Read AI

Better Meetings, Emails, and Messages with Read AI

The fastest growing meeting notetaker in history for a reason. – growing 35x faster than industry peers.

Read AI makes your meetings, emails, and messages more efficient with AI-generated summaries, transcripts, playback, and highlights. With the average knowledge worker experiencing a 20% lift in productivity, Read AI delivers the efficiency of AI to all of your team's interactions.

Read AI is directly integrated with Microsoft, Google and Zoom to deliver best-in-class summarization. Our high bar on security, privacy, and performance is visible as the only company that is both a Zoom Essential App and Google Add-On (available to tens of millions of users daily).

See why Fortune 1000, government agencies, NGOs, financial services, and health care organizations have made Read AI the fast growing meeting notetaker ever. With 80% retention rates; Read's retention is the highest in the industry. Sign-up for a free trial at read.ai.

Multi-Source Summaries & Integrations

Read AI consolidates topics from multiple channels (meetings, email, and messaging) to push relevant information to where you and your teams work today.

Cross-Platform Assistant

Our direct integrations with Microsoft, Google, Hubspot, Salesforce, and Slack drive value to your current workflow immediately and automatically.

Multi-Language Support

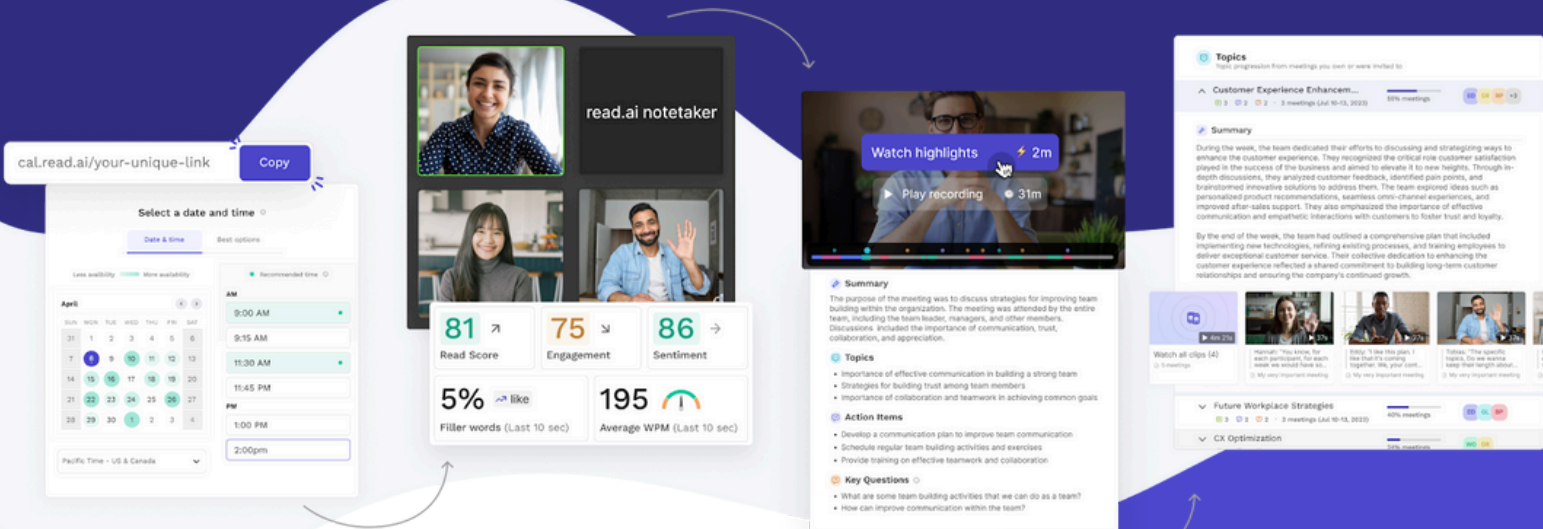

Read supports transcription in over 10 languages including English, Chinese (Mandarin and Cantonese), French, German, Hindi, Italian, Japanese, Portuguese, and Russian – and we're always adding more.

Security and Privacy

Read AI's commitment to security and privacy makes it the only meeting solution to integrate directly at the SDK level with Microsoft Teams, Google Meet, and Zoom.

Founded by former Snapchat and Foursquare leaders, security is at the core of our product.

SOC 2 Type 2 Compliant

Read AI is SOC 2 Type 2 audited, with encryption for all transmitted and stored data. We default to opt-out, ensuring your data is never used for model training without consent.

Transparency and Opt Out

Transparency is in our DNA. Read AI allows any meeting participant to opt out, providing unparalleled user control and comfort. We also work with platforms to add in-app notifications when measurement occurs.

Trusted by Millions

Trusted by millions, including a significant portion of the Fortune 500 and various government agencies, Read AI sets the standard for secure meeting solutions. Learn more on our [Security & Privacy Overview Page](#).
