FEWER TOOLS. MORE TRUST

Finally. A platform to replace multiple software supply chain security tools with one platform. Unify SBOMs, software risk, policy, and remediation with Bulletproof Trust.

Prevent

Assess

Remediate

Bulletproof Trust brings SBOMs, software risk, policy-based threat prevention, and automated remediation into one workflow. Replace standalone scanners and consolidate overlapping security tools with one tool that can be deployed air-gapped in hours.

Finally. *Trust* in Open Source

TOOL	WORKFLOW TO CONSOLIDATE	 BULLETPROOF TRUST
Syft	SBOM generation	✓ Generate from source, containers, binaries ✓ Rich SBOMs with PURLs and metadata
Grype	Vulnerability scanning	✓ Correlate CVEs and prioritize what matters ✓ Monitoring nearly 50 vulnerability databases
Dependency-Track	Continuous component monitoring	✓ Track SBOM risk and changes in one place ✓ Visual dashboards and alerts
Trivy	Secrets and pipeline scanning	✓ Surface hidden secrets ✓ Enforce CI/CD decisions
Snyk Open Source	Dependency risk	✓ Analyze dependency risk (all the way down) ✓ Automated reachability analysis using AI
Mend SCA	Open source risk and remediation	✓ Find risks others miss (like contributor risk) ✓ AI-enabled automated risk remediation
Black Duck SCA	License compliance	✓ Explore licenses across SBOMs and OSS ✓ Find undisclosed license and copyright info
Anchore Enterprise	SBOM management	✓ Securely collect SBOMs from suppliers ✓ Validate SBOMs for compliance (CISA, etc.)
Sonatype Lifecycle/Nexus IQ	Software composition analysis	✓ Identify and determine risky components ✓ Enforce built-in or custom policies
FOSSA	VEX, PR checks	✓ Full VEX import and export support ✓ CI/CD, API, and CLI integration
GitHub Dependabot	Dependency version updates	✓ Preview risk reduction ✓ Create GitHub PRs for package upgrades

Selected workflows shown; consolidation scope varies by product and deployment

BUILT FOR CONTROLLED ENVIRONMENTS

Customer controlled AI workflows. Deploy air-gapped. Dark Sky access *not* required.

DESIGNED FOR SPEED AND CONTROL

Deploy in hours. Develop at speed. Triage and control risk with AI-enabled automation.
