Adobe Paperless Government Solution Offer to US Federal

The Adobe Paperless Government Solution (Adobe PGS) is a secure, cloud-based offering that empowers the Federal Government to significantly reduce costs, streamline operations, enhance user experience, and strengthen security—while accelerating AI adoption and boosting workforce productivity.

Adobe PGS is part of a new strategic agreement between Adobe and GSA, in alignment with GSA OneGov Strategy, that enables agencies to maximize their existing Adobe investments, retire redundant software, and accelerate the modernization of legacy systems.
