Purchase Google Cloud Platform Services at promotional discounts up to 50% off through September 30th, 2026.

In continued efforts to reshape Public Sector IT procurement and allow Federal agencies access to best-of-breed AI tools, Google has entered an agreement with the U.S. General Services Administration (GSA) to offer Google Cloud Platform first party services at up to **50% off**.

This offering builds on Google's previous Google Workspace and Gemini for Government agreements, allowing GSA to act as a central procurement hub and streamline contract licensing by treating the Government as a single customer rather than requiring agency-by-agency negotiations.

The Google Cloud Platform promotion will allow customers access to **20% off** list for first party cloud services, and **50% off** network standard egress and GCE egress.
