Oracle Licensing Assessment: Mapping Your Path to Cloud Excellence

Oracle Licensing Assessment
Mapping Your Path to Cloud Excellence

Most Oracle customers like the technology but struggle with the licensing. It's expensive, hard to track, and Oracle Audits are often complicated and expensive. The TekStream Database Oracle Licensing Assessment (DB OLA) is a comprehensive license review of your current environment that makes sure you are following the rules while taking advantage of unique-to-AWS cost savings. It includes an evaluation of your current Oracle estate and AWS mapping. As a select OLA partner, TekStream also provides migration services assessment, high-level technical audit and an ROI analysis. AWS fully funds the DB OLA Program at no cost to the customer.

What We Do

Oracle Licensing Plan
- Assessment of the organization's current license position and future plan based on AWS migration
- Potential savings and license surpluses are clearly identified with specific dollar amounts
- Compliance concerns are mapped out to ensure there are no issues with the new environment
- After guidance is determined, no agents from your team are required, and the work is in TekStream's hands

High-Level Technical Plan
- High-level overview of potential AWS configurations
- Could include RDS, EC2 or migration to Aurora, PostGres or similar
- Estimated costs of related AWS subscription

Migration Budgetary Estimate
- A bounded range estimate for hours a migration would take TekStream to do without customer assistance
- Estimated funding from AWS, like the MAP program

Business Case & ROI
- Detailed scope document with expenditures and savings that help your organization understand the full scope of the proposed project and share with stakeholders

Why TekStream

- 98% of our clients are repeat customers
- TekStream is an AWS Advanced Tier Services Partner with Migration Services, Oracle Migration and Government Services Competencies
- Highly skilled and 100% certified team with decades of experience in AWS and Oracle
- 100+ recruiters across 25 states, with an average of 15 years of experience
