### Key Benefits

#### Reduces Risk :

*Without internal expertise, there's a significant risk of overlooking crucial security threats that fall outside the scope of vendor guidelines, client demands, or insurance policy requirements, leaving your business vulnerable.*

#### Cost Effective:

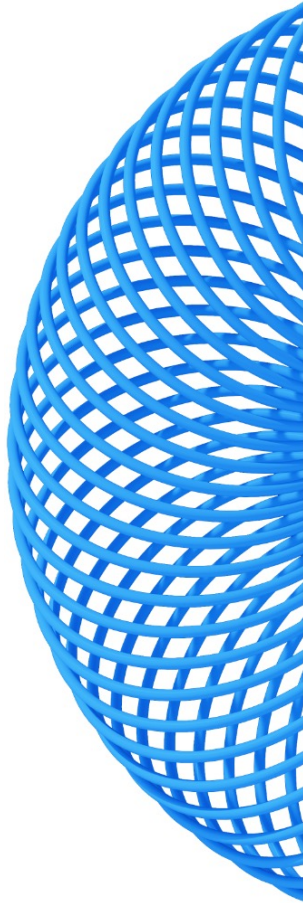

*On average CISOs cost \$250k-\$350k annually. For a fraction of that cost, you gain an expert to guide program development.*

#### Maximizes Security ROI :

*Don't waste time and money on consultants selling you solutions you don't need. A vCISO will prioritize work on the areas of greatest risk.*

#### Extension Of Your Team :

*A vCISO provides your security team with the expertise, experience, and support required to accomplish your organization's security goals.*

Our vCISO service allows you to take advantage of our expert knowledge, without needing to pay for a full-time Chief Information Security Officer.

Our senior staff integrate with your team, to lead, guide and help improve your cybersecurity strategy. Working with existing internal and third-party resources, we develop a program of works that reduces your operational risk.

In addition, the knowledge and experience of our entire technical team of Cyber Experts is available to provide:

- ✓ Complete technical and governance expertise.
- ✓ Full support of an experienced cyber team.
- ✓ No single point of failure.
