

## REQUEST FOR VMWARE TRAINING VOUCHER

Thank you for your interest in the Army ELA Training Voucher Program. The program consists of courses designed to provide Army personnel training on the management, installation and configuration of VMware products. Training is available online and on-demand 24/7, giving students the flexibility to complete the training at their own pace. Each course is estimated to require one week to complete and includes practice labs. Students will have an initial 45 day time period to access the course and practice labs beginning on the day the training voucher is redeemed. Upon request, students can receive an extension of time to complete the course.

To obtain a training voucher, please provide the information requested below and send the completed and signed form to: **armyelapso@vmware.com**. Only one request form per course, per student can be processed at a time. Access to training is limited, so your government civilian/military supervisor's approval is required. If you have additional questions, please contact the CHES Help Desk at (888) 232-4405 or VMware at: **armyelapso@vmware.com**.

COURSE OFFERINGS	SELECT ONLY ONE
