Zoom Phone and Additional Offerings Join the GSA Schedule 70

Matt Mandrgoc

January 24, 2022 · 3 min read

Today we're excited to announce that Zoom has expanded our list of solutions currently available on the [General Services Administration \(GSA\) Schedule 70](#), which now includes the FedRAMP-approved version of Zoom Phone and an expanded variety of Zoom Webinars licenses, as well as commercial [Zoom One packages](#), [Zoom Events](#), [Zoom Phone Power Pack](#), and more.

Zoom & GSA

GSA Schedule 70 serves as a contracting vehicle, connecting the public sector with more than 11 million private sector services, equipment, and supplies. As a long-term, government-wide contract, GSA helps equip federal, state, and local government employees with modern and advanced tools that enable them to get their best work done.

Zoom's work with GSA began back in 2018 when we [first announced](#) that [Zoom for Government](#) would be available on GSA Schedule 70 through our public sector distributor [Carahsoft](#). With today's announcement, we're excited to continue our work with GSA and Carahsoft to expand government workers' access to the collaboration solutions they need to succeed in today's digital landscape.

Details on exciting new additions

Both Zoom for Government and commercial Zoom solutions are currently available to contract via GSA. Here are the new additions, which are included in contract number GSA MAS 8F: 47QSWA18D008F:

FedRAMP-approved solutions under Zoom for Government:

- Expanded Zoom Webinars licenses
- Zoom Phone, as well as the following phone add-ons:
 - International calling
 - Pro PBX
 - Metered license
 - U.S./Canada phone numbers
 - Unlimited domestic (U.S./Canada)
 - Toll-free number (U.S./Canada)
 - Power Pack
 - Common area
- Concurrent Zoom Meetings

Commercial Zoom:

- [Zoom Events](#)
- [Concurrent Zoom Meetings](#)
- The following [Zoom Phone](#) add-ons:
 - [Pro PBX](#)
 - [Common area](#)
 - [Power Pack](#)
- [Zoom One](#)
- [Cloud recording](#)

Tailored solutions for today's public sector

Today's government users can leverage solutions included in either our [Zoom for Government or Zoom commercial platforms](#), depending on the needs of their organization.

Zoom for Government delivers an intuitive and secure experience similar to what commercial Zoom users know, with the only difference being that [Zoom for Government](#) is designed to comply with the specific requirements of the U.S. federal government. Both versions of the platform are scalable and flexible, giving today's governmental organizations the technology they need to achieve their goals while still helping to protect important information shared across the platform.

Zoom for Government has been authorized at the FedRAMP Moderate Level. It has received Provisional Authorization (PA) from the Defense Information Systems Agency (DISA) for the Department of Defense (DoD) at [Impact Level 4 \(IL4\)](#) and an Authorization to Operate (ATO) from the Department of the Air Force for conducting IL4 meetings. Zoom for Government also supports HIPAA, CJIS, and CMMC compliance requirements, and has achieved a StateRAMP Moderate authorization.

To discover the Zoom solutions currently available to contract on the GSA Schedule, please contact zoom@carahsoft.com or visit the [GSA Schedule 70](#) webpage. And you can learn more about Zoom for Government [here](#).
