Lineaje SBOM360 Hub

Publish, share and use compliant SBOMs with confidence

SBOM360 Hub is the industry's first SBOM Exchange for the complex software distribution chain. SBOM360 Hub connects software producers, software consumers, and the software distribution channel to publish, share and use SBOMs and related compliance artifacts privately, collaboratively enabling frictionless sales and software consumption.

Key capabilities

Publish compliant SBOMs privately

Publish approved SBOMs and auto-generate immutable Executive Order 14028 compliant Doc-set for each product or SKU in minutes.

Share SBOMs & compliance doc-set with complete visibility

Confidently share your SBOMs and compliance doc-set with customers, distributors, resellers, system integrators, and other stakeholders. Manage sharing levels to ensure compliance or deep assessment.

Assess the reputation that each SBOM reveals

Provide published SBOMs to both consumers and producers for assessment. Discover its reputation, and integrity & inherent risks that each SBOM reveals. Plan and share mitigation plans using VEX, CSAF, etc.

Search within seconds

Efficiently search for vulnerabilities, licenses, provenance, supplier details and more across all your SBOMs and vendors'. Streamline search across subscribed SBOMs and more.

Automated & custom alerting

Stay informed with active SBOM subscriptions as an exchange user, receiving timely notifications for any updates or changes.

Publish privately or publicly

Effortlessly auto-publish compliant Product SBOMs with evidence as mandated by Executive Order 14028 publicly, or privately.

See your entire software eco-system in one location

Onboard new vendors, suppliers, distributors, resellers and customers quickly and collaborate with them to create better, more secure software. Streamline requesting new SBOM doc-sets from software producers while managing all your SBOMs in one location.

Unveil the hidden layers in your software

Discover open-source and third-party dependencies embedded in the software you use, embedded suppliers and their provenance and more

Simple ways to get to value in minutes for free

Check if your SBOM is compliant

Login, upload a SBOM and get know for sure

Begin your search and discover

Login & Search – Public SBOMs can also be searched. Find the reputation of your favorite dependency or submit it, and we will generate one for you in 24 hours.

Publish a SBOM for a customer in minutes

Your customers want SBOMs from you? Publish privately to them in minutes

Assess any SBOM on us

Upload any SBOM. Click on "Assess SBOM" and discover software contents

Executive Order

The White House issued Executive Order 14028 in May 2021 to improve the nation's cybersecurity. It strengthens defenses against cyber threats for federal networks and promotes collaboration between government and private sectors. It mandates software vendors to publish an attestation letter outlining software components and associated evidence, and requires federal agencies to assess risks when buying software from vendors. SBOM360 publishes all compliance artifacts necessary to comply with Executive Order 14028.

Who uses SBOM360 Hub

Software product teams who want to publish a SBOM & compliance doc-set to their customers through direct and indirect channels

Software salespeople and channel resellers who need to share product SBOMs & doc-set with their customers or other sales organizations

Software buyers, security professionals and users who want to access SBOMs from their vendors and product teams

About Lineaje

Lineaje provides comprehensive software supply chain security management for organizations that build, use or sell software.

SBOM360 is the industry's first SBOM Manager. Organizations can discover their software supply chain, assess its integrity & inherent risks, and drive continuous improvement across their portfolio of applications. SBOM360 Hub is the industry's first private & secure SBOM exchange for the software distribution chain.
