Palo Alto Networks is committed to helping federal agencies safeguard mission-critical operations by delivering advanced cybersecurity solutions that meet the highest compliance standards. In support of GSA's OneGov initiative, Palo Alto Networks is excited to offer federal agencies limited-time discounted pricing on its FedRAMP high-authorized platforms.

Our integrated AI-powered security portfolio enables agencies to reduce risk, eliminate manual processes, and accelerate secure adoption of cloud technologies. By consolidating cybersecurity capabilities under a unified platform, federal organizations can achieve cost efficiencies, improve resilience against evolving threats, and ensure compliance with mandates such as TIC 3.0 and Executive Order 14028.
