

# Why bulletproof mobile security is more important than ever

When you effectively manage the threats, there's no limit to the benefits that mobile productivity can bring to your organization.

## Enterprises are losing the security battle

# 2

## BILLION HACKED

Over 2 billion customer records were stolen in 2016 alone.<sup>1</sup>

# \$2.1

## TRILLION

The cost of global data breaches will grow 4 times between 2015-2019, from \$500 billion to \$2.1 trillion.<sup>2</sup>

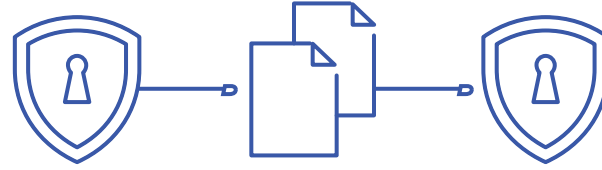

## Smartphones will become the number one target for cyber criminals by 2021<sup>3</sup>

## Be resilient

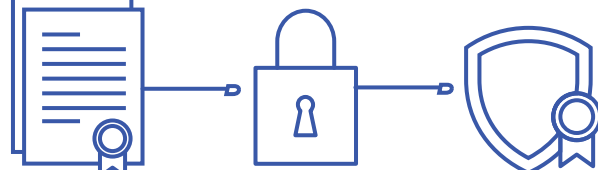

The right mobile security matters

BlackBerry® has what you need to win the security battle.

### Protect from end-to-end

BlackBerry® Secure is a comprehensive mobile-native approach to security that addresses the entire enterprise.

### Look for independent certifications

BlackBerry holds 80+ security certifications – more than any mobile vendor.

### Secure the Enterprise of Things

BlackBerry software secures the Enterprise of Things – including iOS®, Android™, Windows®, Windows Phone®, Mac OS® X, BlackBerry®, and wearables – so that the Internet of Things can thrive.

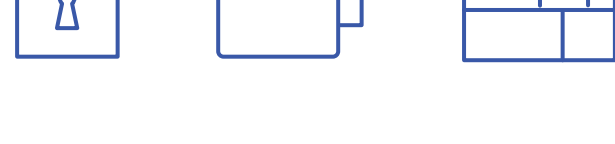

### Find a trusted solution

BlackBerry is trusted by the world's most security-obsessed environments, including all G7 governments, 9 out of 10 of the largest banks and law firms; 4 of the 5 largest global managed healthcare providers, and 3 of the top global investment service companies.<sup>4</sup>

### Strengthen native encryption

BlackBerry® Secure provides an advanced, tested container for mobile apps with no dependence on the underlying mobile OS.

### Seek security that follows your files

BlackBerry® Workspaces keeps you in control of file security – even after they are shared outside the firewall.

## BlackBerry makes mobile security bulletproof and future-proof
